No *effective* oversight!

MI5 had this image of Tanweer & Khan... so why did they send this version for identification?

Blackmail

"[The deep state] want to make sure that **only blackmailable candidates get to hold office**…

If you're squeaky clean, and if you start running for a major seat/position the chances are you're *not* going to get there because…

they don't want you there – they can not put pressure on you via blackmail."

Sibel Edmonds

(Ex FBI translator)

"Most gagged person in the history of the USA."

Vincenzo Vinciguerra

(NATO/Gladio bomber)

Speaking at his trial

"You had to attack civilians, the people, women, children, innocent people, unknown people far removed from any political game. The reason was quite simple. They were supposed to force these people, the Italian public to turn to the State to ask for greater security."

"Counter-Terrorism"

Clique of "terrorologists"

"Mainstream" Media

Corporate media is centralised, so vulnerable to deep state control

MI5 had this image of Tanweer & Khan... so why did they send this version for identification?

"Early in life I have noticed that no event is ever correctly reported in a newspaper."

George Orwell

What you need to control a media system is ostensible diversity that conceals an actual uniformity.

TERROR METER

CUT ON DOTTED LINE

CAN'T REMEMBER THE TERROR LEVEL?
Whether Elevated or Under Attack, the Department of Homeland Security Terror Meter takes the uncertainty out of staying informed of the level of terror in our nation. Move the Terror Indicator to the current threat level, which corresponds to how terrified the American people are of the threat of terror attacks. Terror is all around us, and can strike at any time. Thanks to the Terror Meter, you will never have to wonder how terrified you should be. Proceed with caution.

"The whole aim of practical politics is to keep the populace alarmed (and hence clamorous to be led to safety) by menacing it with an endless series of hobgoblins, most of them imaginary."

H. L. Mencken
